# The venue

## Why on campus?

- Lots of in-kind support
- Free use of rooms — the usual fee was waived because there was a strong case that CG Week is student-focused
- Flexibility: access to printers, equipment, etc. in real time
- Less need for large deposits in advance

## Other thoughts:

- The \$1145 for buses to/from the dinner was well worth the cost
- Given the location, catering dinners felt more important than lunches

# Many thanks...

- **The University of Queensland** for much in-kind support
- **The NSF** for travel support for US-based students
- **Adam Gowty, Ainsley Pullen, Clément Maria, Patrick Eades** and **William Pettersson** for all their help
- All of you for coming!
