Welcome

Local information This file (hopefully) contains all information which you will need upon your arrival in Eindhoven to find your hotel, the conference, and for the reception.

The **Computational Geometry Week** (CG Week 2015) is the premier international forum for advances in computational geometry and its many applications. The next edition will take place at TU Eindhoven, the Netherlands, June 22-25, 2015. CG week combines a number of events, most notably the **31st International Symposium on Computational Geometry** (SOCG 2015), the associated multimedia exposition, workshops, and the Young Researchers Forum.

2015 is the first year that SOCG is organized as an independent conference. Please see the [Computational Geometry Pages](#) for details on the community's decision.

Biggest headaches

- T-shirts
- ESF support administration
- > 800 e-mails (Marc); > 1400 e-mails (Bettina)
- ...

long stories omitted

Things to note

- LIPIcs proceedings are 6 Euro/participant, and it's Open Access
- Free child care, used by six children

Things to note

- LIPIcs proceedings are 6 Euro/participant, and it's Open Access
- Free child care, used by six children
- Hollandse nieuwe (lunch tomorrow)

beginner

advanced

Things to note

- There was no registration for separate days on purpose
- Two tracks for SoCG?!?
- Some workshops are organized too loosely
- CG Week needs a timeline, earlier than it was for SoCG
- Clear distribution of responsibilities between PC chairs and organizing chairs

.. and

Thanks for being here!
