

# SafeTOC for CGWeek

We endorse the recommendations of the ad-hoc committee to combat harassment and discrimination. In particular, we authorize and instruct SoCG steering committee to take the following steps:

- Join the consortium of conferences and the program of ToC advocates, including contribution of resources as needed.
- Solicit advocates from our community, and provide logistical support to them as needed at future CGWeeks.
- Develop and adopt recommended procedures regarding a code of conduct and author-declared conflicts of interest.
- Report back to the SoCG community on progress and steps taken as the consortium grows.
