Number of submissions per author

- Irina Kostitsyna took over Matias Korman as proceedings chair — many thanks!
- 9 persons we invited to join the PC declined, one mentioning that they wanted to submit.
- zoom meeting for all PC members $\times 2$ for timezones (and frequent zoom meetings between the two PC co-chairs).
- a single submission did not comply with the LIPICs format. All the other ones respected the 500-line limit (although not always with the required font. . .).

Thanks!
